EDUCATION

Uka Tarsadia University

August 2022 - Present

Btech, Information Technology

GPA: 8.60/10 (Till Sem 6)

Ashadeep IIT (HSC)

June 2020 - March 2022

Percentage :- 54%

Gajera Vidhyabhavan (SSC)

June 2019 - March 2020

Percentage :- 72%

Technical Knowledge

Languages :- C, C++, HTML, CSS, Javascript

Framework:- React.js

IDE's :- Visual Studio Code, Google Colab, Pycharm, Webflow

Soft Skills :- Presentation, Teamwork, Collaboration, Learning Agility, Time Management

Experience

DecodeX Infotech (Internship) :-

(May 2025 - July 2025)

- **Designation :-** FrontEnd Web Developer Trainee

Academic Projects

1. Doctor Appointment Management System

(February 2025 - April 2025)

- Built a full-stack doctor appointment system using MongoDB, Express.js, React, and Node.js (MERN).
- Enabled patient registration, doctor profiles, and appointment booking with secure user authentication (JWT).
- Designed responsive UI and implemented role-based dashboards for admin, doctors, and patients.

2. Movie Review Web App

(September 2024 - October 2024)

- Built a Movie Review Web App using React JS with a focus on clean, responsive UI and intuitive user interaction.
- Designed static movie flashcards with elevated hover effects using CSS transitions to enhance visual appeal.
- Implemented modular and reusable components for scalability and easy maintenance of the app structure.

3. Unsupervised Anomaly Detection

(August 2025 - October 2025)

- Implemented an unsupervised anomaly detection system using PatchCore with ResNet-50 for industrial image inspection, achieving accurate defect classification and segmentation.
- Prepared and optimized model training on the MVTec Carpet dataset, utilizing feature extraction and memory bank subsampling techniques to enhance detection robustness.
- Evaluated performance with comparative experiments, analyzing confusion matrices and F1-scores to reach up to 91% model accuracy; documented and presented insights on machine learning optimization.

Achievements

Fastest Coder First: My Team Secured 2nd Position in Sciclone 2024 in event of Coding.
